Business Networking

Business professional with a heart for charity? Networker? Like meeting new people in the community? Grab a few friends or sign up on your own and help Habitat change lives and transform neighborhoods! We're looking for 8 business professionals to connect with other business people, share Habitat's vision of affordable housing for all, and offer opportunities for businesses to become part of the solution. Team members should be enthusiastic about impacting people's lives, have about two hours a month to devote to the task, and an additional hour to meet on the 2nd Wednesday of the month with other teams within the Public Relations Committee. Habitat will provide guidance, resources, and support!

Sponsorships Team

Are you a “people person?” One of those folks no one can say “no” to? Like a challenge? Habitat is seeking at least four folks to locate, and reach out to, local businesses to be sponsors of specific events & activities so we can maximize the dollars we spend on affordable housing and minimize overhead costs. Habitat will provide the list of items/activities and the team will seek people to donate or underwrite them. Consider asking co-workers or your club to adopt this philanthropic cause and take on this challenge of seeking sponsorships for a cause together! The more the merrier and you WILL be making a difference!

Gala Team

Are you a social butterfly?? Do you have experience planning/hosting parties? The Gala is our most prestigious and significant annual fund-raising event. We are in search of five individuals to begin planning the spring 2011 event and make it a smashing hit. Party people unite! We have a great team captain ready to take the lead, but we need your expertise!

Special Events Team

Not to be confused with the “Gala” Team, this group is responsible for orchestrating other Habitat events throughout the year such as socials for prospective donors and the annual volunteer & donor recognition reception. A few individuals with a few hours a month to spare and some creativity are needed!
